To achieve these looks use Brenlo 146A (T&G v-groove in Poplar)

This modern take on tongue and groove brings history into the future. It offers a connection to Muskoka's roots while making a statement about the community's commitment to timeless design

## EXPLORING STYLES OF T & G

This month, we're shining a modern spotlight on two ageless design classics: tongue and groove and shiplap. These trends continue to evolve and captivate, even in our rapidly changing the design landscape.

Tongue and groove, a method that interlocks wooden boards, is a tradition that has been adorning cottages and homes for generations. However, we're taking this classic to new heights. It's no longer just about the warm, rustic embrace of wood; it's about reimagining it for modern life.

The allure of tongue and groove lies in its ability to evoke a sense of coziness and nostalgia. In Ontario, where winters can be long and cold, this design feature is not just visually appealing but also serves as a practical insulator. A warm wood accent adds a charm that complements the serene beauty of a landscape.

Tongue and groove has evolved beyond cozy cabins and cottages. In contemporary homes, you'll find it in sleek, minimalist spaces, adding depth and character to otherwise clean, open designs. It's a versatile material that can dress up an entryway, elevate a living room, or create a tranquil bedroom retreat.

To achieve this look use Brenlo 146B (T&G in Pine)

To achieve this look use Brenlo T&G 1x3 in Hemlock(custom)

#### SHIPLAP:

Shiplap, once exclusive to nautical construction, has made a stunning comeback in contemporary home design. Today's shiplap is far from confined to white paint and coastal themes; it has evolved into a versatile design element, adaptable to any style.

With its horizontal lines, shiplap offers a modern sense of space, beautifully complementing the influx of natural light in our homes. Whether you prefer vintage treasures or sleek, minimalist decor, shiplap provides a stylish canvas for your personal story.

This resurgence isn't just about aesthetics. Shiplap can be used as an accent wall, ceiling treatment, or unique backdrop for storage, offering endless design possibilities. In essence, shiplap has become a timeless tool for homeowners to express their individuality and creativity within their living spaces.

#### PRESERVING TRADITION, EMBRACING INNOVATION:

While tongue and groove and shiplap hold a special place in design history, they are by no means static. Today, these timeless elements are being reimagined and adapted to suit modern tastes and needs.

As we celebrate the enduring appeal of tongue and groove and shiplap, we look forward to exploring how these design elements continue evolve in the years to come.

At BRENLO we offer a variety of T & G and shiplap profiles in both Poplar (whitewood) and Pine

Poplar is an excellent choice for painting and is stocked at BRENLO in lengths of up to 16 feet  
Pine is another great choice for both interior and exterior applications

The sky is the limit with our customization opportunities with Hemlock, riftcut white oak, walnut as some popular choices

See below for a list of our stock profiles, readily available to ship in Poplar or Pine

To achieve this look use Brenlo T&G 1x4 in Basswood(custom)
